Remote learning

Dear Parents/Carers,

Firstly, thank you for your support over the past few days while we make the transition to remote learning. We understand that this does create extra pressure for families and appreciate all efforts to support your child's learning at home.

Remote learning is a new for all of us and we understand that it can be very difficult at home with limited devices. As you may have seen in the news, the government has announced that laptops will be made available to support remote learning. We have had a lot of phone calls asking for support with this, but unfortunately we only have a small number of devices which are currently being configured ready for use. We are having to prioritise those most in need and will be in touch with families who we are able to support over the next week.

Some families have been in contact with difficulties printing the work. Please do not feel any pressure to do this – as long as you are able to display the learning in some way, children can record their work on paper. We have exercise books in school which you are more than welcome to collect, as well as pencils if needed. If you have no internet access and require a pack of work, please call school. Class teachers are there to support you with any issues with the learning – let us know how your children are getting on so that we can adjust the work for them if needed. Please bear in mind that teachers may also be delivering learning to children of critical workers within school so you may not get an immediate response.

Again, thank you for your support.

Kind regards,

Miss Foster
Head of School
