

## Student Teacher Primary Placements

Elston Hall Multi-Academy Trust is committed to the education of trainee teachers and work in partnership with University and college settings to support trainee teachers, TA programmes and school based experiences.

Our role

- To provide an induction and familiarity with the setting and school policies.
- To know the ITT standards and relevant subject knowledge.
- To undertake ITT programme requirements by the link providers.
- To work collaboratively with schools, tutors, trainees – undertaking observations (joint and individually), weekly mentoring sessions and contributing to progress and assessments requirements relevant to the trainee programmes.
- To engage with mentor training from ITT providers.
- To provide teaching commitment which addresses course requirements and non-contact/PPA time.

School experience placements are registered by the University or College ITT partnership placement lead direct with the Elston Hall Multi-Academy Trust Induction tutor. The lead tutor will assign class teachers and mentors to support the ITT providers requirements. The trust will support placements to ensure support and assessments build on the teacher's standards and link to personal professional development in line with their education training programme.
