

# Year 3 Summer Term

Welcome back after the Easter break. We hope that you have had an enjoyable holiday!

## Maths

As mathematicians in Year 3 the children will be starting the term consolidating their knowledge and understanding of 2D and 3D shapes and exploring lines and angles. They will look at directions and descriptions of turns.

We will also continue our learning on measurement, focusing particularly on length, capacity and mass.

Children will then end the term tackling statistics, using bar charts, pictograms and tables. Times tables will be frequently practised to sharpen quick recall of the 3,4 and 8 times table, and beginning to look at the 6 and 9 times tables.

## English

In English children will be learning to use a range of punctuation, including inverted commas and apostrophes. Children will also be encouraged to edit and improve their writing by using a range of appropriate vocabulary including conjunctions, adverbs and a variety of sentence openers. We will be asking the children to apply their skills through poetry, play scripts and story writing including looking at legends.

As always, spelling will play an important part in our writing. Children will continue to have age related spellings alongside their phonic related spellings, focusing on particular phonemes or spelling patterns. Spelling tests will be on a Thursday as normal and new spellings will be given out by the Friday. Thank you for the support at home!

## Science

As Scientists, the children will be learning about plants, including their needs for growth and the life cycle of flowering plants. They will then go on to learn about shadow as part of our work on light.

## Religious Education

This term in RE children will be learning about the Prophet, Mohammad (pbh), and what it means to be a role model in society.

## Design and Technology/ Art

In Art children will be exploring perspective in Art, developing our skills and looking at examples in famous pieces.

In DT children will be exploring pneumatics to make a moving device.

## PE

This term children will be focusing on skills needed to play games and working on our athletics skills ready for Sports Day. Fingers crossed for good weather!

## Geography

As Geographers the children will be consolidate their learning on the U.K. and then explore reasons for migration.

## History

As Historians, the children will be continuing with their study through time, and have now arrived in Roman Britain. They will look at the growth of the Roman Empire and life as a Roman soldier.

## Music

As Musicians, Class 10 will now have the chance to learn an instrument. The other classes will continue working on musical elements and singing in unison.

## Computing

During computing lessons the children will reinforce their understanding of E-safety and will move on to explore and use coding programs.

## Creative Homework

As well as completing their reading journals every week, children will have the opportunity to complete creative homework tasks in their purple homework books. Homework will be given on a Friday and children will always be given a couple of weeks to complete activities.
