

Year 2 Summer Term 2017

Welcome back after the Easter break. We hope that you all had an enjoyable holiday! We look forward to a jam packed summer term with lots of exciting lessons ahead!

Maths

As mathematicians in Year 2 the children will be counting forwards and backwards in ones, twos, fives and tens up to 100. We will also start to count above 100. They will practise adding two numbers together (starting with counting on and moving onto partitioning) and will begin to quickly recite the number bonds to 10, 20 and 100. The children will also learn how to solve simple subtractions. They will learn the features of 2D and 3D shapes and be able to name triangles, squares, rectangles, circles, hexagons, pentagons, heptagons and octagons, and will also look at how to measure length and height.

English

In English, children will continue to learn about spelling, grammar and punctuation while applying this knowledge in stories, descriptions and book reviews. Throughout the term, children will practise identifying and using the 4 sentence types – command, exclamation, question and statement. They will also practise identifying and using adjectives, nouns, verbs and adverbs in their writing.

Science

As scientists, children will be learning about plants and they will describe how seeds and bulbs grow into mature plants. Children will also learn about what a plant needs to stay healthy.

Computing

In Computing, children will learn about e-safety, basic programming using programmable toys and basic coding software.

Religious Education

During the term we will be exploring Islam and the Muslim faith.

Art

As artists, children will be looking at the work of Vincent Van Gogh. They will be studying his paintings and learning how to draw a sunflower. Children will draw and paint their own vase of sunflowers on canvas.

Design and Technology

As designers, children will be designing and making their own sunflower. They will learn how to join fabric together using a variety of techniques.

P.E

This term children will learn how to use their bodies and equipment with greater control and coordination

History

As historians, children will be learning about the life of a significant individual from the past and the contributions that this person has made.

Geography

In Geography, children will be learning about the physical and human features of Wolverhampton in comparison to another small part of the world

Music

As musicians, children will be learning how to accompany their songs with instruments and learn to compose their own tunes.

MFL

MFL will focus on French, children are given informal opportunities to experience and use the language.
