

Previous ISA Accreditation

Elston Hall Primary School is proud to have achieved continuous accreditation of the ISA since 2010 and have established strong links with schools in France and Texas, completing cultural activities and projects with these schools throughout each year. These activities have strengthened and supported both staff and children's understanding of different places and cultures, giving learning a real-life purpose and relevance. We have also had links with schools in Germany and other countries, completing a range of joint projects over the years. Learning languages has a central place within our diverse curriculum and our children learn French right from Reception until Year 6. We also celebrate the other languages spoken by our families and students. Our thematic curriculum ensures that a diverse range of cultures and countries are experienced and that a multicultural approach to learning is an integral part of our wider curriculum.

To complete our application for the award last year, we worked together with partner schools listed below on seven activities:

1. Multicultural learning- a thematic approach to the curriculum
2. Reading around the world
3. Multicultural book week
4. International heritage project
5. Christmas around the world
6. Celebrating world music
7. Commonwealth Games

Partner Schools:

Ecole primaire Les Salins, France

L'Ecole Antoine Saint Exupéry, France

Edward Manzoni Jr Middle School, USA

Wilhelm-Raabe-Schule Grundund Oberschule, Germany

Fly High Scuola Prima, Italy
